

Fire District # 26

Dec 27, 2003

Woodlawn Park is part of the St. Matthews Area First District which has one of the highest efficiency ratings of any volunteer District in the USA. We feel securer by the fact that we are under their umbrella; however, we must cooperate with them in order for District #26 to maintain this rating. One way and perhaps the best, is to keep our traffic lanes open. If the Fire Fighting Apparatus should collide with any vehicle parked in the street , the owner of the parked vehicle is responsible for any damage to the fire equipment.

Few people realize that the St. Matthews Fire District still relies heavily upon volunteer firefighters to help deliver the many emergency services we provide to the community. Today, the request for fire and emergency services are at an all time high and the fire district has a need for more volunteer firefighters than ever before.
